User guide

Instructions for using the app

1) Scan the QR code below to download the app.

2) After you have registered on the app and logged in,

Button

3) To connect the CELLMATE device to your phone, tab the "+" symbol at the bottom right hand corner of the screen. You can connect the CELLMATE device to your phone through Bluetooth pairing.

On the next page you will see a picture of the CELLMATE. Tab that picture to start the connection process.

4) After successfully connecting your phone to your CELLMATE device, you will be redirected to the homescreen. Your CELLMATE is now connected to your account.

5) To select who can unlock the device, you first have to add a friend. Tap on the "Friends" icon in the home screen, followed by tapping the "add" icon in the top right hand corner of the following screen. Search for the ID Number of your friend in the "Search ID" bar and tab "Search".

*An ID number can be found at the homescreen under the menu item "me". On the "me" page, go to the gear icon on the top right corner. Here, you can find your ID number.

6) To change who can unlock CELLMATE device, tap "Toys" on the home screen where you will see a "LOCK" icon. Tap on the registered device and open the "device settings" with the "GEAR" icon.

Tap "Transfer the authority" and then "Yes".

Warning: do NOT disconnect bluetooth or you will lose control of the device.

7) To control the device yourself, tap "Toys" in the home screen and tap on the "lock" icon.
After connecting the device through Bluetooth you can unlock the device yourself by tapping on the "unlock" icon.

If you want to lock the CELLMATE for a set period of time, tap on the registered device and open the "device settings" by tapping the "gear" icon. Tap on" Set Timer" to open it so that you can set the duration of your lock up.

Please note: your CELLMATE will NOT open until the set time is done counting!

Applying the CELLMATE cage.

1) Slide the penis and testicles through one of the rings with the pins facing away from the body.

2) Using lubricant, slide the penis into the cage and align the cage with the pins. Adjust the cage so that it is completely comfortable before locking.

3) Push the locking pin through the hole in the ring. You will hear a 'click' when it has fully closed.

Removing the CELLMATE cage.

1) Gently press the button on the cage to power up the cage

2) The person who has control over the device will need to tap "Toys" followed by tapping the lock icon to open your CELLMATE page. Once your CELLMATE is connected, a blue light will appear on the pressed button. The blue light indicates a successful connection.

3) Tap the middle "unlock" icon. The locking pin will be opened automatically, allowing the cage to be removed.

4) Pull the rest of the locking pin out and remove the cage and the ring.

Set up and Personal details

- Tap on "Me" in the home screen.
- Tap on "Language set" to change language.
- Tap on "Theme set" to change theme.
- Tap on the "gear" icon in the top right hand corner to setup your personal details.

Matters that need your attention
